

TANISH SAINI

CSE Student • Developer • Cybersecurity Enthusiast • Builder

Jammu, India | Phone: [Your Phone] | Email: [Your Email] | GitHub: github.com/TanishCreates | Portfolio: tanishsaini.vercel.app

PROFILE

B.Tech Computer Science & Engineering student with hands-on experience in Python, web development, cybersecurity projects, APIs, Git/GitHub, Linux and problem solving. Interested in building practical software products and learning cybersecurity, AI/ML and backend development through real projects.

EDUCATION

B.Tech — Computer Science & Engineering

Model Institute of Engineering and Technology (MIET), Jammu

2024 – Present

Currently pursuing

Class XII — Science

BSF Senior Secondary School, Jammu

2024

PROJECTS

DepCheck — Python Dependency Vulnerability Scanner

GitHub: TanishCreates/DepCheck

Built a FastAPI-based security tool that scans Python dependency files and checks packages against the OSV.dev vulnerability database. Added parsers for requirements.txt, pyproject.toml, Pipfile/Pipfile.lock and poetry.lock, caching, CLI support, web UI and automated tests. The project includes 40+ passing tests and is structured for deployment.

Fixit — Cooperative Gig Services Platform

SIH Project • Team Project

Designed a location-based platform connecting users with local service professionals while also enabling professional-to-professional collaboration and skill growth. Core flow includes location-based discovery, professional profiles, booking, OTP-based job completion, reviews/photos, itemized estimates and approval-based job status.

Personal Portfolio — Digital Archive

aboutme-six-mu.vercel.app

Designed and developed a personal portfolio showcasing projects, GitHub work, interests and current activities with a minimalist developer-focused interface.

TECHNICAL SKILLS

Languages: Python, C, JavaScript, HTML, CSS

Backend/Web: FastAPI, REST APIs, Streamlit, Vercel

Data/AI: Python-based NLP/ML fundamentals, APIs

Cybersecurity: Vulnerability Scanning, OSV API, Dependency Analysis

Tools: Git, GitHub, Linux/Bash, VS Code

Concepts: DSA, OOP, Software Testing, Web Development

LEADERSHIP & ACTIVITIES

Class Representative — CSE A5: Coordinating communication between students and faculty, sharing academic updates and supporting class-level coordination.

Smart India Hackathon: Worked on the Fixit concept and presentation, including problem analysis, technical approach, feasibility, viability and business potential.

INTERESTS

Cybersecurity • Software Development • AI/ML • Web Development • Building Projects • Technology • Watching Web Series
